ROOSEVELT TO BRING UP REAR

Will Ride With M. Pichon In Funeral Procession

**Announce Official Program—Eight Monarchs Will Follow
Gun Carriage Containing Edward's Casket—Princes,
Dukes And Heir-Apparents From All Over Europe
Will Precede Carriages Containing Queen Mother,
Queen Mary And Their Suites**

London, May 19.—In brief, the official program for tomorrow's ceremonial is as follows:

The coffin will be transferred from the catafalque at Westminster hall to a gun carriage at 9:40 a. m. The royal regalia will be placed on the coffin and the procession will then be formed. It will be headed by a multitude of men prominent in the British and foreign military and naval services, their names and ranks being fully set forth in the program, and massed bands and royal suites. Immediately behind the gun carriage will come Prince Louis of Battenberg; King Edward's chargers will come next, led, and then the royal standard will come. Behind will come a cavalcade of royal personages, King George leading. The Kaiser will ride on his right and the Duke of Connaught on his left, a few paces to the rear. In ranks of three they will ride the kings of Norway, Greece, Spain, Bulgaria, Denmark, Portugal and Belgium, the Austrian heir-apparent, the Ottoman heir-apparent, Prince Fashimi of Japan, Grand Duke Michael, representing the czar; the Duke of Aosta, representing the king of Italy; Prince Ruprecht of Bavaria, the Duke of Sparta, the crown prince of Roumania, Prince Henry of the Netherlands, Duke Albrecht of Wurttemberg, the crown prince of Serbia, and a large number of princes and dukes of various European nations.

Royal Family in Coaches.
The crown querry, General Ewart, will ride alone behind this company of mounted royalties. Then will come a glass-paneled coach and pair, in which the queen mother, the dowager czarina and Princess Louise and Princess Victoria will ride. A similar coach will follow occupied by Queen Mary, the Queen of Norway, the Duke of Cornwall and his sister, Princess Mary. Then there will be four coaches filled with princesses belonging or immediately related to the British royal family, and another carrying a Chinese prince and the members of the Chinese mission, all the foregoing being royal.

Mr. Roosevelt and M. Pichon, the French foreign minister, will ride side by side in the eighth carriage of 12 near the end of the procession.

The foregoing list takes no notice of the numerous highly placed officers who will precede, surround and follow the gun carriage. Blood will go before the delegates of the United States and France. Etiquette in European courts accords honor and precedence in ceremonial matters not to the nations represented, but to the individual representing, hence the anomaly that the French royal princes, who represent nobody but themselves, and the royal delegates from such comparatively insignificant states as Waldeck-Pyrmont, Siam and Montenegro, for instance, take precedence over the representatives of the world's two great republics.

THROAT IN BAD SHAPE

London Specialists Fail to Relieve Roosevelt's Talking Apparatus.
London, May 19.—Mr. Roosevelt's throat trouble is proving more obstinate than it was thought it would be. He obeys the London specialist's strict orders to be as quiet as possible to the best of his ability, but his throat seems to be worse than it was some days ago. His position as official envoy to the funeral entails a certain amount of social duty, which, however, is not exacting. He "in-

scribed" on the king, queen, queen mother and Duke of Connaught; in short on all British and foreign royalties now in London. This only amounts to calling at their residences and writing his name in their visitors' books.

Since he has been in London Mr. Roosevelt has twice had his western friend, Seth Bullock, at lunch at the embassy, introducing him to R. J. Cunningham as "another open-air man." Mr. Cunningham and Mr. Bullock have been getting on well together and are having a good time seeing London.

FIGHT TO SEE CASKET

Police Have Trouble With Mobs at Gates of Westminster.

London, May 19.—As the time approached for the closing of Westminster hall the crowd, whose number was enormous, lost patience, broke the line, swept the police aside and surged forward in a dangerous rush. Fresh police were close at hand and they promptly drew a strengthened cordon. This, however, was quickly broken, and the people stormed into the palace yard, where those who have passed the king's coffin make their exit, and tried to force the doors. If they had succeeded, it is impossible to say what would have happened.

It is figured that about 120,000 persons, some estimates are 150,000, passed through the hall during the day. Among the wreaths sent to Windsor is one of palm leaves and orchids, with a silk American flag. This is from President Taft. Another one of white orchids is from Mr. Roosevelt.

PULLMANS MAKE KICK

Chicago, May 19.—The Pullman Car company filed a bill in the United States circuit court asking for a preliminary injunction against the interstate commerce commission. The car company seeks to enjoin the commission from enforcing the new sleeping berth rates recently fixed by the commission, lowering the charge for upper berths.

REASONS FOR VETO

Columbus, O., May 19.—Governor Harmon vetoed the so-called board of control bill because, he says, "it is only the mangled remains of a carefully drawn piece of legislation" which originally designed to place all state institutions under the control of a state central board. The governor approved 13 bills; among them are the general deficiency bill and Schurr's amendment to the state banking laws, to enable the state bank examiner to liquidate the business of defunct or failed state banks.

Prince Edward Albert, Heir Apparent of Great Britain

Prince Edward, who will soon be made Prince of Wales, a title that is given by individual investment and not by birth, is the eldest of the six children of the new king and queen of England. He will be sixteen years old on June 23.

Prince Edward will for the present be styled the Duke of Cornwall and Rothesay. He succeeds forthwith to the duchy of Cornwall, with a clear income of \$400,000 yearly, which will accumulate until he becomes of age, giving him an independent fortune of \$2,500,000.

The fact that he will some day become king of England if the normal course of events is not interrupted does not seem to weigh heavily upon Prince Edward. He is as merry and light hearted a youngster as can be found anywhere. He has a whole menagerie of his own, to which he is devoted, and he is an ardent advocate of kindness to animals.

HEARING IS HAD IN HOCKING CASE

Columbus, O., May 19.—Before Judge Sater, James H. Hoyt of Cleveland, Hocking Valley counsel, and two court stenographers, were put on the stand in an attempt to show that the application for transfer from the Franklin county court was made before the receivership was appealed to the circuit court. Attorneys for the minority stockholders attacked the testimony on the ground that it constituted an effort to impeach the entry in Judge Kinkead's court. Judge Sater will consider the question for a

few days before giving his decision. Samuel Untermyer, the New York lawyer who represents David H. Gould and James H. Stanton of New York, complaining stockholders in the suit to prevent the Chesapeake & Ohio and Lake Shore & Michigan Southern railways from exercising control of the Kanawha & Michigan railway, arrived here to appear with the presidents and officials of the roads involved in a hearing of the Kanawha & Michigan suit before Judge Sater today.

BURNED TO DEATH

McArthur, O., May 19.—The 6-year old daughter of Mr. and Mrs. J. S. Mollillon of Dundas was burned to death, her clothing catching fire while she was playing near fire in the yard.

KILLS WIFE IN RAGE

Columbus, O., May 19.—"Well, that woman won't monkey around any more niggers," said Wilbur Jones, colored, as he rushed from the residence at 61 Starr avenue. He had shot and killed Eva, 28, his wife, employed as a domestic. Jones escaped.

TUMBLING FROM ROPE

Columbus, O., May 19.—In the presence of 5,000 people Clyde Ward and Clyde Craft, local tight rope walkers, fell from a height on a line with the fourth stories of surrounding buildings at the Hub celebration. Craft will recover, while Ward is still in a very critical condition from his injuries. Women in the crowd, among them the young wife of Ward, fainted by the dozens.

Uncle Joe Discouraged.
Washington, May 19.—Speaker Cannon was quoted as predicting that congress will not adjourn until July 15, at the earliest, and possibly remain in session until Aug. 1. Uncle Joe is discouraged over the legislative outlook, and believes that it will take a great deal of time to effect compromises on the various measures in controversy between the two houses.

BARRACKS WRECKED; 100 DEAD

RUSHES TROOPS TO SCENE

**People at Havana and Pinar del
Rio Greatly Wrought Up Over
Disaster—Dynamite Was Being
Removed to Magazine.**

Havana, May 19.—One hundred persons were killed when the barracks of the rural guards at Pinar del Rio were blown up. Owing to race troubles, dynamite being used on the various public works in that section had been collected and stored in the barracks, the quantity there being 3,000 pounds. Orders had been given for the removal of the dynamite to the regular powder magazines, and the government reports state that the explosion occurred while this was being done. However, this was the day fixed by the negro conspirators for an uprising, the earth's entering the tail of the comet to be the signal, and many entertain the belief that the explosion was the first overt act of the revolutionists. Several special trains carrying troops have been rushed from Havana to Pinar del Rio. General Montenegro, commander of the rurales, and several officials accompanied the troops.

The barracks, in which were quartered the rurales, a number of public works employees and officers' families, were completely destroyed. Commander Havana, with all his family, and other families are among the killed. A corporal of rurales is the only survivor.

Many Buildings Wrecked.
Many buildings in the vicinity of the barracks were wrecked. There is the most intense excitement, both at Pinar del Rio and Havana, everyone remembering the abortive attempt to start a revolution some time ago by murdering the sleeping rurales in their barracks at Guanabacoa, a few miles from Havana, which atrocity the late Senator Morua Delgado instigated. The negro uprising, which Senor Estenoz, who is now in jail waiting trial, is alleged to have been planning, was, it is said, arranged to start simultaneously in Pinar del Rio and Santiago provinces.

The government insists that the explosion was an accident, but meanwhile it is rushing troops to Pinar del Rio.

GIRL RESCUED FROM FANTIC

Was About To Be Offered As Human Sacrifice

**Sect Feared Wrath Of Comet—Former Resident Of Lees-
burg, Ohio, Stood With Knife In Upraised Hand Be-
fore Victim As Oklahoma Sheriff Dashes Into Se-
cluded Dell At Head Of Posse And Interrupts Rite
That Was To Save The Earth From Destruction**

Aime, OKLA., May 19.—As she was about to be sacrificed as a blood atonement that the sins of the world might be forgiven, Miss Jane Warfield, 16, was rescued from a band of religious fanatics, 25 miles southwest of this place.

The sheriff of Dewey county had been informed that the band of religious enthusiasts known as the "select followers" had given out that their leader, Henry Heinman, had received a revelation from God that the world was to end and the heavens would be rolled up like a scroll following the contact of the tail of the comet; that the only thing that would avert the disaster was a blood sacrifice; that in order to save the world a sacrifice had been planned and the lot had fallen to Jane Warfield. Sheriff Hughes with a posse of six men reached the dell in the Glass mountains just as the sacrifice was being prepared and only in time to rescue the girl.

The Warfield girl was clad in spotless white, with a wreath of white roses about her head. Her hands were bound and Heinman standing in front of her with a long, keen hunting knife in his hand. About him were grouped about 40 of his followers. Heinman is said to be from Leesburg, O., and a graduate of some Ohio university. At one time he was a disciple of Harmon, the free-thinker.

FIREWORKS ABSENT

**People Scan Skies In Vain For
Sight of Comet.**

New York, May 19.—Without even a murmur the tail of Halley's comet swished by us. There wasn't a cloud in the sky over Manhattan Island at the time astronomers had told us that we would pass through the tenuous streamer. Not a meteor fell within sight of the city nor was there any evidence of northern light or other illuminations of that nature near the horizon.

Professor Harold Jacoby, Rutherford professor of astronomy at Columbia university, went to the shore of the Hudson to see whether there had been any foundation for conjecture of phenomena. He stayed there until the most optimistic of wonder-seekers was satisfied that we had passed out of the comet's tail.

When it was certain that, by the calculations, we were well within the tail, Professor Jacoby looked around him, up and down the river and over to the Jersey shore, and as far east as the tall buildings would permit.

WILL NOT PERMIT FIGHT AT BLUEFIELDS

Bluefields, May 19.—The steamer Venus, accompanied by the tug San Jacinto, with a force of 350 men under command of General Irias, who calls himself minister-general of the Atlantic coast, arrived off Bluefields bluff and demanded the immediate surrender of Bluefields in the name of President Madrid. General Estrada, the rebel leader, refused to capitulate. The Venus then announced

New York and everywhere else, for that matter, will begin tomorrow evening, or possibly not until Saturday evening. Then we ought to have a splendid view of the comet as it hangs in the western sky just after sunset every evening until June 10, or possibly later. Then you will see these people out here will be rewarded with something worth looking at."

As he spoke, Professor Jacoby looked around, up and down River-side drive, where at the park wall was a solid line of people. Taxicabs and automobiles were drawn up beside the curb along the drive. It wasn't a comet crowd in any sense, either. High hats sprinkled through the crowd and many women in evening gowns had their cloaks over their shoulders and came out bareheaded to watch for the possible wonders.

and laughed a little as he said:

"Shakes Hands With Himself.

"Well, we were right when we said that nothing was going to happen, weren't we? Most of us were sure that there would be nothing extraordinary, but we had to take the precaution just the same. This isn't a telescope job, and if anything of an unusual nature were going on we could witness it here just as well as anywhere except possibly in an observatory out in the country, where buildings and city lights would not obstruct our view.

KILLED BY A TRAIN

Wooster, O., May 19.—At Orrville Mrs. Lucy Greer, 70, stood at Main street crossing while a freight train went by. As the caboose passed Mrs. Greer started to cross the track and was struck by an engine on the west-bound track.

Trainmen Veto to Strike.

New York, May 19.—The officers of the Brotherhood of Railroad Trainmen and the Order of Railroad Conductors completed the canvass of the vote of the Erie trainmen and conductors on the question of a strike for the scale of wages paid to the Baltimore & Ohio men, and it was announced that the vote for declaring a strike was a fraction over 50 per cent.

that it would bombard Bluefields today, and warned noncombatants to seek shelter.

The fruit steamer Dictator, from New Orleans, arrived here. She was held up by a party from the Venus, who arrested her passengers and seized her mail. Commander (Hill) of the American gunboat Paducah has warned the belligerents that he will permit no fighting at Bluefields.
